
PROGRAM OF
14th International Conference on Computability,
Complexity and Randomness

Time	Sunday, June 23
9:00	Registration & Opening ceremony
9:15	Chair: Rod Downey Steffen Lempp: <i>On the order dimension of locally countable partial orderings.</i>
10:15	Coffee break
10:45	Chair: Rod Downey Wolfgang Merkle: <i>Logical Depth of Infinite Binary Strings: An Overview.</i>
11:45	Lunch
14:00	Chair: Bruno Bauwens Gohua Wu: <i>Lachlan Sets and Degrees.</i>
15:00	Coffee break
15:30	Chair: Bruno Bauwens Luca San Mauro: <i>Computable reducibility and its variants.</i>
16:30	Chair: Bruno Bauwens Nan Fang: <i>Betting with preference on outcomes.</i>

PROGRAM OF
**14th International Conference on Computability,
Complexity and Randomness**

Time	Monday, June 24
9:00	Chair: Steffen Lempp Tim McNicholl: <i>Effective metric structure theory.</i>
10:00	Coffee break
10:30	Chair: Steffen Lempp Margarita Marchuk: <i>Index sets of decidedly categorical and computably categorical structures.</i>
11:30	Chair: Steffen Lempp Rod Downey: <i>A Hierarchy of Degrees.</i>
12:15	Lunch
14:00	Chair: Wolfgang Merkle Andrei Alpeyev: <i>Entropy and Kolmogorov complexity for amenable-group actions.</i>
15:00	Coffee break
15:30	Chair: Wolfgang Merkle Alexander Shen: <i>Kolmogorov complexity and logic.</i>
16:15	Chair: Wolfgang Merkle S. Goncharov, S. Ospichev, D. Sviridenko and D. Ponomaryov: <i>Logical Language of Polynomial Computability.</i>

PROGRAM OF
**14th International Conference on Computability,
Complexity and Randomness**

Time	Tuesday, June 25
9:00	Chair: Luca San Mauro Svetlana Selivanova: <i>Exact real computation and complexity of PDEs.</i>
10:00	Coffee break
10:30	Chair: Luca San Mauro Elvira Mayordomo: <i>The return trip to classical fractal theory from effective fractal dimension.</i>
11:30	Chair: Luca San Mauro Bruno Bauwens: <i>Enumerable semimeasure, randomness, and dependence: explaining Leonid Levin's paper.</i>
12:15	Lunch
